Tour Automation

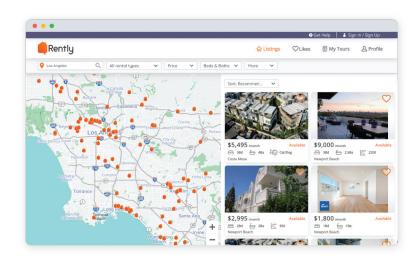

Our guided renter journey allows prospects to securely tour vacant units and shared amenities with or without the presence of an agent.

Rently Listings

Our listing site homes.rently.com
increases tours by 25% and receives
more than 10 million visitors each year.

Rently also syndicates single family properties to the web's most popular listing sites.

Rently Tours

Self-Guided Touring

- **Step 1:** Prospects find your listings online.
- **Step 2:** Renters complete a multi-layer security process.
- **Step 3:** At the door, renters enter a one-time, durational entry code into a smart lock or lockbox to begin their tour.
- **Step 4:** Post-tour, renters provide feedback and are prompted to complete the property manager's online rental application.

DID YOU KNOW?

42% of Renters

prefer to tour outside of regular business hours.

- Rently automatically responds to tour requests with a link to schedule a self-guided tour
- Prospective renters can access chat, email, and Al support while touring
- Multifamily managers can customize community access and parking instructions, and pin points of interest on their community map

Advanced Security Tools

Rently takes a multi-layered approach to detect and deter rental fraud, including identity and location verification before every tour, renter scam education, and more.

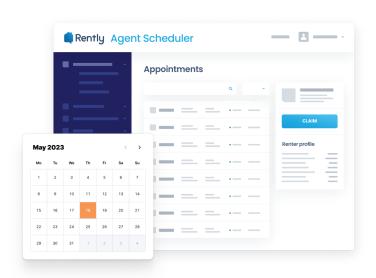

Verified Renter

Our built-in lead verification service starts at the property search and helps you focus on quality leads, reducing scams by 35% on average.

Fake Listing Monitoring

Rently partners with Property Shield to monitor, identify, and remove unauthorized listings from third-party websites and prevent scams.

Agent Scheduler

Offer your prospects multiple touring options: agent-led tours and self-guided tours. Our Agent Scheduler automates tour scheduling and follow-ups to capture more leads.

Rently integrates with your CRM calendar to show prospects your availability. We then post appointments to your calendar so all of your scheduled tours are visible in one place.

Wayfinding

This unique multifamily feature uses GPS-style blue-dot mapping to guide prospects from the parking area to specific units and amenities within your community.

- Activate new units for self-guided tours within seconds
- Easily add/remove map pins to highlight community points of interest
- Provide the most-user friendly self-touring experience currently available

Smart Home

From vacancy, through residency, to unit turnover, Rently's smart home solutions enhance all leasing activities for both renters and managers, while simplifying operations and increasing NOI.

- · Increase resident satisfaction and retention
- · Improve security at each of your properties
- · Increase ancillary property revenue
- Decrease utility costs by 10-20%

Optimize Your Entire Leasing Lifecycle

Vacancy: Install smart devices for an added layer of security and reduce utility costs when your properties are vacant.

Move-In: Allow contactless turnovers with no key exchange.

Leased: Offer luxury amenities for residents, with full remote control capabilities.

Move-Out: Automatically revoke resident access and provide vendors with durational codes for make-ready projects.

Access Control

Remotely manage unit, amenity, and community access for self-guided tours, residents, and staff. Streamline property touring and enhance resident living.

Common Area Access

Provide access for multiple users with multiple modes of entry, and view a complete activity log at any time. Create customized schedules with Passage Mode, and offer amenity reservations and community touring.

Smart Home — 6

Security Monitoring

Enable 24/7 property surveillance with real-time alerts to protect your properties. With perimeter cameras, doorbell cameras, motion sensors, and more, Rently has you covered.

Energy Management

Monitor and control daily utility usage and HVAC performance to reduce costs and extend unit lifetime. Set schedules for thermostats and smart lighting scenes.

Damage Prevention

Avoid unnecessary expenses with real-time alerts of potential threats to your properties. Detect leaks and smoke/CO before they become costly problems.

Automated Work Orders

Managers quickly initiate work orders and assign technicians to respond to resident service requests.

Easily gather resident information regarding location, service issue, priority level, request dates, and pet presence.

- Empower leasing teams with fast-track responses to resident requests
- Expedite work orders
- Streamline maintenance workflows
- Enhance resident experiences

Installer Workflow

Deploy confidently with Rently's streamlined installation workflow to accelerate the roll-out of smart home properties.

- Activates via Rently's Smart Home app
- Empowers technicians with step-by-step instructions
- Links to real-time technical support, if necessary
- Synchronizes communication between technicians and managers
- Eliminates frustrations and delays
- Provides visibility into device deployment status

Smart Home — 7

Smart Management Platform

We offer the ultimate, end-to-end solution to seamlessly manage every aspect of your leasing operations from one platform.

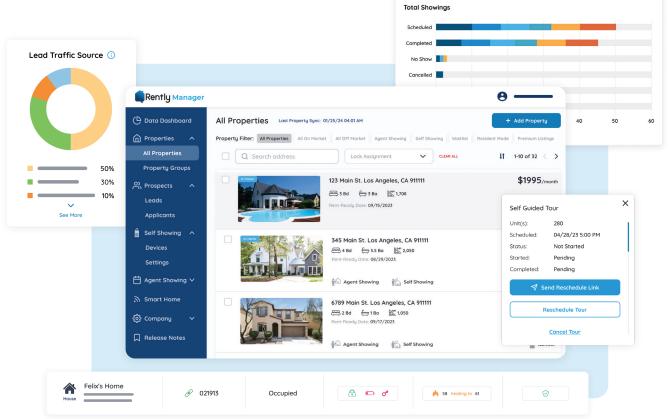

With the Rently Manager Portal and app, you can manage your tours, tenants, and devices for all of your properties.

Remote Property Management

- Control multiple properties and devices with a single login
- Manage leads and view past and upcoming tour data in real-time
- Monitor tour status and device performance with our robust data dashboard

HARDWARE

Features and Specifications

Rently Hub 4

The fourth version of the Renty Hub features SmartStart and S2 Security support, and added compatibility with the Verizon network makes this device truly tri-carrier enabled.

Compatible with all Z-Wave products. Contact customer support for specific product compatibility.

Product Specifications

Product Measurements:	7 x 5.5 x 1.125"
Warranty:	1 Year
Required Wireless Connection: (Only one connection required)	4G LTE Wi-Fi (802.11b/g/n) Ethernet (10/100M)
Supported Wireless Standards:	Z-Wave Z-Wave Plus Bluetooth (BT4.0) Wi-Fi
Number of Supported Devices:	Up to 232
Indoor Operating Environment: (Not suitable for outdoor use)	Temp: 0-60°C Humidity: up to 90%
Storage Environment:	Temp: -20-35°C Humidity: up to 50%

Inputs:	Ethernet SIM card 5V DC == 2500mA
CPU:	ARM Dual-Core Cortex-A7
RAM:	1GB
Cellular Module:	EG915Q-NA CAT-1
Ethernet:	10/100M
Battery Backup:	Li-4 hours
Mounting Bracket:	Yes
Swappable SIM:	Yes
AC Power:	5VDC/2.5A
Wireless Updates:	Yes

Rently Access Panel with Intercom

Rently's Access Panel with Intercom is the ultimate multifunction access control solution for shared spaces. It combines an E-Ink access control panel, credential reader/keypad, QRcode interaction for intercom communication, and a contact sensor—all with no hub required.

Features

- · Access via code, app, or fob
- · Connect with Wi-Fi, cellular, or Ethernet
- · Power-efficient, dynamic E-Ink display
- · Simple setup—no hub required
- · One/two-way video calling
- Define business hours restrictions and create a cutomized access schedule
- Activate passage mode to disable auto-lock during specific times
- · Easily manage reservations for selected amenities
- Residents can reserve common areas directly from the smart home app

Product Specifications

Dimensions:	8.39" x 4.13" x 1.22" (213 x 105 x 31mm)
Weight:	845.5g (1.86lb)
Code and Fob Capacity:	2000
Connectivity:	Cellular, Ethernet or Wi-Fi 2.4GHz
Operating Temp:	-35°C to 70°C (-31°F to 158°F) 95% humidity

Power Input:	12-24VDC or 12-24VAC, 24W min.
RF Technology:	Bluetooth 4.0, NFC
NFC Read Range:	0-10m
Output:	One dry relay Normally Open / Normally Close
Certifications:	UL294; IP65 for indoor or outdoor use

Access Control — 12

Rently Smart Bolt

The next generation of Rently's Bluetooth-enabled deadbolt is the future of access control for rental homes, featuring increased security, durability, and battery life for worry-free property management and a smooth renter experience.

Features

- Integrates with property management software (Yardi, RealPage, Entrata) for easy resident move-ins and move-outs
- · Manage hundreds of locks using a single login
- · Bluetooth and cloud-controlled with no need for Wi-Fi
- · Easy to install, includes all required hardware
- · Two-year battery life with jump-start ability to prevent lockouts
- · Unlock via code, fob, or Bluetooth
- Residents can issue durational codes for their guests and easily manage their lock with Rently's Smart Home app

Product Specifications

Dimensions:	Exterior: 8" x 5" x 3.25" Max Interior: 8" x 3.15" x 2.24" Flex Interior: 6.57" x 3.15" x 2.24"
Protocol:	Bluetooth BLE, NFC
Devices:	iOS and Android
Compatibility	1 3/8" to 1 3/4" door thickness
Handing:	Self-handing
Power:	4 or 8 AA batteries
Codes:	Supports up to 200 unique codes
Operating Temp:	Exterior: -30°C to 75°C Interior: 25°C to 70°C
Certifications:	FCC Part 15; IC; CA65; ANSI/BHMA 156.36 Grade 2

Smart Bolt Flex (4-battery)

Access Control

Kwikset Home Connect 620 Deadbolt

Keyed | Push Button

This Z-Wave 700 smart lock is a suitable replacement for your existing locks, offering premium protection and accessibility to your home. The Home Connect Smart Lock includes three methods to lock/unlock your front door: traditional turnkey, numeric passcodes, and remote access through the Rently Smart Home app.

Features

- · SmartKey® Re-Key Technology with BumpGuard™ Protection
- · Comes with two keys
- · Tapered deadbolt design permits misaligned doors to lock & unlock with ease
- · Easily installs in minutes with just a screwdriver
- · 10-digit keypad with one-touch locking
- · Provides S2 Access Control security
- · 128-bit Advanced Encryption Standard communication
- · Incorrect code protection with audible alarm

Yale Assure Lock Interconnected

Key-Free | Touchscreen

Ideal for multifamily and single family residential use, this Z-Wave integrated lock from Yale offers a smooth, weather-resistant design and easy installation. The interior lever retracts the latch and deadbolt simultaneously for a quick exit while the motorized deadbolt ensures a secure lock every time.

Features

- · Available in 4" or 5 1/2" center-to-center*
- Rubber gasket protects your door and shields your lock from weather elements
- · Motorized, tapered deadbolt
- · Solid metal escutcheon
- Privacy button prevents unwanted access from the outside at the touch of a button
- · Keypad wakes with a touch
- · Single point lock
- The latchbolt and deadbolt are operated by either lever at all times
- Deadbolt activated by keypad or key on outside, or by thumbturn on the inside
- The interior lever retracts the latch and deadbolt simultaneously

Available Finishes:

Product Specifications

Rently Self-Showing Lockbox

The most reliable and easiest-to-use lockbox available. Manufactured by SentriLock, this lockbox is the #1 electronic lockbox in the real estate industry. This all-in-one lockbox enables secure self-tours with flexible temporary access to rental properties when connected to Rently's Self-Guided Touring service.

Features

- Safe & Secure: Designed to withstand just about anything, this lockbox maintains the highest security rating in the world
- Latching System: Patented latch immobilizer system prevents impacts from exterior blows and attacks from high strength magnets
- Extra-Large Key Bin: The clamshell design key bin stores larger keys, is pry-resistant, and opens fast
- Illuminated Keypad: Keypad lights up when activated for enhanced visibility during use
- Industry-Leading Access Control: Connected to Rently's Self-Guided Touring service for secure temporary access during self-tours
- Longest Battery Life: 4–5 year battery life, and batteries can be replaced in the field
- Enhanced Physical Security & Durability: Engineered with a high-strength corrosion-resistant steel vault and bolt-cutter-resistant shackle, this lockbox is built to last

Product Specifications

Dimensions:	3.125" L x 2.5" W x 8.5"
Shackle Clearance:	2.37"
Weight:	2.5 lbs
Protocol:	Access codes provided via Rently Self-Touring service after verifying user identity

Operating Temperature:	-30 °C to 66 °C
Battery Life:	4-5 years
Battery Type:	CR123A Lithium Battery
Certifications:	UL 1037 Security Certification, CE, FCC, RoHS Compliance

Ecolink Long Range Garage Controller

Z-Wave 700

This garage door controller adds remote status and operating capability to most legacy garage door operators. The Controller is the first Z-Wave long-range product certified by the Z-Wave Alliance, providing up to 2200 feet of line-of-sight communications between the Controller and a paired Z-Wave long-range enabled panel or hub inside the home. The Controller is also compatible with classic Z-Wave 300, 500 and 700 series.

Features

- Compatible with most legacy garage door operators including Chamberlain Security+ 1.0 and 2.0
- Provides up to 2200 feet line-of-sight between the controller and a compatible Z-Wave Long Range panel or hub
- · Includes 345Mhz Clearsky® protocol tilt sensor
- · UL325 Certified
- · Easy to install and connect via traditional Z-Wave
- Provides both audible and flashing light warnings prior to door operation (open/close)

Product Specifications

Controller Dimensions:	5" × 3.75" X 1"
Power:	12VDC, 1.0A
Operating Frequency:	345MHz, Z-Wave (908.42MHz, 916MHz), Z-Wave Long Range (912MHz, 920MHz)
Z-Wave LR transmission distance:	Up to 2200 ft line of sight
Operating Temperature:	-4° to 140°F

Access Control — 21

Standby Time:	1 year (alarm once for 10sec daily)
Detection Range:	7m
Radio Protocol:	Z-Wave™ (ZGM230S)
Operating Temp:	-10°C~ 40°C (14°F~104°F)

Features

- Includes motion, temperature, humidity and light sensors
- 360° detection (suitable for ceiling fixture)
- · Battery detection
- · LED status indicator
- · Easy installation

Rently Door & Window Sensor 2

Contact sensors that notify you when an entrance has been opened or has been left open. Ideal for placement on doors or windows.

Features

- · Two statuses: open and closed
- · Real-time alerts
- · Compatible with Z-Wave 700 series
- · Easily install with screws or stickers
- · Red LED lights when triggered

Product Specifications

Range:	Up to 45ft indoors Up to 80ft outdoors
Radio Frequency:	908.4MHz
Power Supply:	CR123 × 1
Standby Current:	luA
Battery Life:	2 years
Operation Temperature:	0 °C – 70 °C
Size (LxWxH):	Main Body: 82mmx27mmx23mm; Deputy Body: 50mmx13mmx16mm

Aeotec Door / Window Sensor

Z-Wave Plus

The Aeotec Door / Window Sensor 7 is your first line of defense against an intruder. With Aeotec's patented Spatial Intrusion Algorithm $^{\text{TM}}$ built in and when paired with compatible software, the Door / Window Sensor 7 can even detect some break-ins before they happen.

Features

- 3-in-1 MultiSensor: includes magnetic contact, dry contact relay, and a tilt sensor
- · 40% smaller than previous generations
- 3+ year battery life powered by CR2 3V battery.
 Optimized to use up to 66% less battery power to communicate than previous generations
- Easy Installation: attach it to your door, and the Door / Window Sensor 7 is ready to protect your home

Product Specifications

Model Number:	ZWA012
Product Dimensions:	19 x 71 x 18 mm
Magnate Dimensions:	8 x 20 x 11 mm
Product Weight:	26 g
Operating Distance:	Up to 150 meters outdoors Up to 492 feet outdoors

Operating Temp:	-4°F to 113°F
Water proofing:	IP20 rating
Power Source:	CR2 3V battery
Battery Life:	Up to 3 years
Frequency:	908.40 MHz, 916.00 MHz
UPC/EAN:	810667025311

Aeotec Recessed Door Sensor 7

Z-Wave Plus

The Aeotec Recessed Door Sensor 7 is a hidden door sensor that you can install directly into your door frame. Comprised of two parts: the main Z-Wave door sensor and the magnetic door contact sensor. It can alert you the instant a door or window opens, and activate compatible sirens, cameras, and other security devices.

Features

- · Easy installation: pairing to the Rently Hub requires nothing more than scanning the QR code. To install, all you need is a hidden hole drilled in the door frame.
- Trigger smart automations or routines when your door is opened or closed.
- · Comes with Z-Wave Security 2 (S2) framework, which is the most advanced security for smart home Z-Wave devices and controllers, Z-Wave gateway and Z-Wave hub.

Product Specifications

Model Number:	ZW187
Product Dimensions:	19.2 x 64 mm
Package Dimensions:	80 x 85 x 30 mm
Product Weight:	30 g
Operating Distance:	More than 131 ft indoors Up to 492 ft outdoors
Frequency:	908.40 MHz, 916.00 MHz
Operating Temp:	32°F to 104°F (0°C to 40°C)

Standby Current:	10uA (paired), 50uA (unpaired)
Working Current:	30mA
Repeater:	No
Power Source:	Lithium cell CR2 3-volt battery 800mAh
Battery Life:	2 years
Certifications:	US: FCC/ETL
UPC/EAN:	810667025267

Uniview ColorHunter 8MP Turret Camera

Strengthen security and create safer communities by installing security cameras throughout rental complexes. Uniview's 8MP turret camera is an indoor/outdoor perimeter camera that captures full color images, even at night.

Features

- High quality image with 8MP, 1/1.8"CMOS sensor
- Smart intrusion prevention, include cross line, intrusion, enter area, leave area detection
- Based on target classification, smart intrusion prevention significantly reduces false alarms
- Intelligent People Flow Counting and Crowd Density Monitoring
- · Alarm: 1 in/1 out, Audio: 1 in/1 out
- · Supports 256GB micro SD card
- ColorHunter technology ensures 24-hour recording of full-color images
- · IK10 vandal resistant and IP67 protection

Product Specifications

Model Number:	IPC3638SE-ADF28KWL-I0
Product Dimensions:	Ø129 x 110mm (Ø5.1" x 4.3") (Ø x H)
Product Weight:	Weight 0.64kg (1.41lb)
Adjustment Angle:	Pan: 0° ~ 360°, Tilt: 0° ~ 72°, Rotate: 0° ~ 360°

Operating Temp:	-22°F to 140°F
Edge Storage:	Micro SD, up to 512 GB
Power Source:	DC 12V±25%, PoE (IEEE 802.3af)
Certifications:	CE, FCC, UL, RoHS, WEEE
	Click here to see additional specifications.

Uniview License Plate Recognition (LPR) Camera

Uniview's LPR camera can read an approaching or exiting vehicle's license plate, check to see if that plate number is listed as a valid resident, and automatically open a gate, providing security and convenience for your renters.

Features

- Built-in lens supports motorized zoom to adapt to different scenes and allows for easy installation.
- Automatic gain control, white balance, and WDR for various light conditions.
- · Supports triple streams.
- Advanced H.265 encoding technology improves compression efficiency.

- Built-in vehicle and license plate recognition algorithm can recognize standard license plates of multiple countries.
- Automatic network replenishment (ANR) allows to automatically store video to SD card in case of network disconnection.
- RTSP authentication prevents unauthorized video stream requests.

Product Specifications

Model Number:	PKC2640@Z28-IR-P
Product Dimensions:	16" x 5" x 5.1" (L×W×H)
Product Weight:	4.6 lbs
Operating Temp:	-40°C to 60°C, ≤90% RH

Camera Sensor:	1/1.8-inch 4MP CMOS
Edge storage:	Micro SD card, up to 256GB
Mounting:	3-axis mounting bracket
Power Source:	DC12V + 25% - 10%

Uniview Plug & Play Network Video Recorder (NVR)

Uniview's network video recorder (NVR) is a computer system that records audio and video footage from connected security cameras and stores it on a hard disk. It also features network adaptability, emergency recovery tools, and supports 8, 16, 32, or 64-channel inputs and independent PoE network interfaces.

Features

- Supports Ultra 265/H.265/H.264 video formats
- · Available in 8/16/32/64 channel inputs
- Plug & Play with 8 independent PoE network interfaces up to 820ft (250M)
- Configurable storage capacity: 8 SATA HDD up to 16TB for each HDD (16TB supports up to 83 days of continuous recording for up to

8 cameras), hard drive purchased separately

- Support mainstream cameras of ONVIF conformance(Profile S, Profile G, Profile T) and RTSP protocols
- · Support HDMI and VGA simultaneous output
- · Up to 16 Megapixels resolution recording
- ANR technology to enhance the storage reliability when the network is disconnected

Product Specifications

Model Numbers:	NVR502-08B-P8, NVR502-16B-P16, NVR502-32B-P16, NVR508-64E-R
Product Dimensions:	NVR502: 12.4" D x 15" W x 2.1" H NVR508: 17" D x 17.4" W x 3.4" H

Product Weight:	NVR502: 4.4 lbs NVR508: 12.1 lbs
Operating Temp:	14°F to 131°F
Power Supply:	AC 100 to 240 V
Certifications:	CE, FCC, UL, RoHS, WEEE

Honeywell T6 Pro Thermostat

A Z-Wave Plus certified thermostat that can be remotely controlled via the Rently Smart Home App for easy programming and automation to deliver energy savings and comfort. Operators can gain insight into HVAC performance, extend the life of their HVAC, and save on utility costs by setting custom schedules.

Features

- · Compatible with most HVAC systems
- Set up custom heating and cooling schedules from the Rently Smart Home app for each hour or day of the week
- You can display ambient air temperature or % relative indoor humidity, or see whether your cooling/ heating system is running
- When Auto mode is selected, the T6 Pro Z-Wave thermostat can automatically determine whether your home needs heating or cooling to reach the desired temperature at the right time
- The T6 Pro Z-Wave thermostat can alert you when your HVAC system is not working properly and can remind you about things like when to change your furnace filter
- Adaptive Intelligent Recovery: the T6
 Pro Z-Wave thermostat learns your
 heating and cooling cycle times to
 make sure the system delivers the
 temperature you want, when you want
 it. (Available only if the local thermostat
 schedule is enabled)

Enbrighten/JASCO Plug-In Smart Switch

Z-Wave

Expand your control with the GE-branded Enbrighten Z-Wave Plus Plug-in Smart Switch. When paired with the Rently Hub, the smart switch operates lighting, fans, pumps and more through individual commands and programmed settings. Wirelessly control and schedule indoor fixtures for effortless management of your home.

Features

- Control the device remotely with your Rently Smart Home app and voice commands, or enjoy manual ON/OFF operation from the switch. Home automation is simple through custom scenes, versatile scheduling and convenient alerts
- Space-saving design leaves lower outlet in a duplex receptacle free for continued use
- Plugs and cords for connected devices route to the side, allowing the device to easily fit behind furniture
- Grounded 3-wire power connection for safety
- No wiring required. Simply plug in the device and connect to your hub for convenient ON/ OFF functions
- Works with all LED, CFL, incandescent and halogen bulbs as well as other devices

Product Specifications

Power:	120VAC, 60Hz
Signal Frequency:	908.4/916MHz
Maximum Load:	960W Incandescent, 1/2 HP Motor 1800W (15A Resistive)
Wireless Range:	Up to 150 feet line of sight between the wireless controller and the closest Z-Wave receiver module
Operating Temperature:	32° to 104°F (0° to 40°C)
Approvals:	FCC, IC

Jasco In-Wall Smart Switch Paddle

Z-Wave | Model: 76596

This hardwired smart switch operates wall, ceiling and accent lighting through individual commands and programmed settings. Wirelessly control and schedule indoor or outdoor fixtures for effortless management of your home.

- Multi-switch compatible: The smart device operates on its own or seamlessly integrates into multiswitch setups
- Range extender: repeats the signal from your hub or other Z-Wave device to extend wireless range by up to 150ft

Product Specifications

Power:	120VAC, 60Hz
Signal Frequency:	908.4/916MHz
Maximum Load:	960W Incandescent, 1/2 HP Motor 1800W (15A Resistive)

Wireless Range:	Up to 150 feet line of sight between the wireless controller and the closest Z-Wave receiver module
Operating Temperature:	32° to 104°F (0° to 40°C)
Approvals:	FCC, IC

Jasco In-Wall Smart Switch Toggle

Z-Wave | Model: 76598

Adds Z-Wave on/off remote control and local control of wired lights or appliances. The toggle switch can be included in multiple automation groups or scenes and a blue LED indicator helps guide you to the switch through the dark.

- Dual ground ports are offset to avoid switch box mounting screws, and support daisy-chaining in multi-switch setups
- Can be linked with add-on switches for up to 6-way operation.
 Not a standalone device

Product Specifications

Power:	120 VAC, 60Hz
Signal Frequency:	908.4/916MHz
Load Ratings:	960W Incandescent; 1800W (15A) Resistive or 1/2 HP Motor

Wireless Range:	Up to 150 feet line of sight between the wireless controller and the closest Z-Wave receiver module
Operating Temperature:	32° to 104°F (0° to 40°C)
Approvals:	FCC, IC

Jasco In-Wall Smart Dimmer Paddle

Z-Wave | Model: 59383

A hardwired smart dimmer that operates wall, ceiling, and accent lighting through individual commands and programmed settings. The dimmer adjusts brightness levels of dimmable LED, CFL, incandescent and halogen lights from 0-100 percent to reduce energy costs and improve bulb life.

- QuickFit design features 20% smaller depth compared to previous models, and eliminates the need for heat tabs
- SimpleWire: Auto-detecting line/load terminals support fast installation by identifying line and load wires and configuring the switch accordingly
- · Multi-switch compatible

Jasco In-Wall Smart Dimmer Toggle

Z-Wave | Model: 59384

The Jasco Z-Wave Plus In-Wall Smart Toggle Dimmer Switch adds Z-Wave remote and local On/Off/Dim/Brighten control for a wired light or appliance. The dimmer toggle switch can be installed in single or multi-way wire applications and included in multiple automation scenes. A blue LED indicator leads you to the switch in the dark.

- Works with dimmable incandescent, LED, CFL, and halogen lighting
- Suitable for single-pole or multi-pole applications
- Can be included in multiple automated groups or scenes
- · For indoor use only

Jasco In-Wall Smart Dimmer Specifications

Power:	120 VAC, 60Hz
Signal Frequency:	908.4/916MHz
Maximum Load:	960W Incandescent, 1/2 HP Motor 1800W (15A Resistive)
Neutral Wire Required:	Yes

Wireless Range:	Up to 150 feet line of sight between the wireless controller and the closest Z-Wave receiver module
Operating Temperature:	32° to 104°F (0° to 40°C)
Approvals:	FCC, IC

Jasco In-Wall Add-On Switch Paddle

Z-Wave | Model: 76600

Create a 3-way or 4-way switch by combining this auxiliary switch with a main Jasco light switch. When used in conjunction, these auxiliary switches allow you to control one load with multiple switches, up to 6-way operations. Ideal for hallways, staircases, or other areas where multiple switches would add convenience.

- Supports up to 6-way wiring configurations
- Requires wiring connections: neutral, traveler and ground
- · Includes interchangeable paddles
- SimpleWire: Auto-detecting line/load terminals support fast installation by identifying line and load wires and configuring the switch accordingly

Jasco In-Wall Add-On Switch Toggle

Z-Wave | Model: 59380

Create a multi-way lighting group by pairing this toggle switch with a main Jasco Z-Wave light switch. This Z-Wave auxiliary toggle switch allows you to wire multiple switches to a single electrical load. Ideal for large indoor areas including hallways, staircases, or other areas.

- Works with dimmable incandescent, LED, CFL, and halogen lighting
- Supports 2, 3, 4, 5, or 6-way wiring configurations
- Suitable for single-pole or multi-pole applications
- Can be included in multiple automated groups or scenes

Jasco Add-On Switch Specifications

Power:	120-277VAC, 60Hz
Operating Temperature:	32° to 104°F (0° to 40°C)
Maximum Load:	960W Incandescent, 1/2 HP Motor 1800W (15A Resistive)
Neutral Wire Required:	Yes

Maximum traveler wire distance:	300ft, interconnected between 4 Add-On switches; No more than 75ft between each switch
Maximum traveler wire distance between primary and (1) Add-On switch:	200ft
Approvals:	UL Listed

Aeotec Z-Wave Range Extender 7

Amplify all Z-Wave signals within your Z-Wave network with the Aeotec Z-Wave Range Extender 7. This wireless repeater improves the signal strength of Z-Wave networks by passing along commands from transmitters and controllers to their intended recipient, providing sufficient signal strength over long distances and large homes. The repeater's small size prevents it from covering up adjacent outlets, so you can boost your network without sacrificing a second plug.

Features

- Plugs into a standard power outlet
- 250% further wireless range: amplifies and repeats weak signals boosting the range and reliability of weak Z-Wave/Z-Wave Plus devices
- 50% faster communication: built upon Aeotec's unique Gen7 hardware and firmware stack, allowing stable performance and seamless automation
- Security 2 System compatible: can amplify and repeat signals from security focused devices, including door locks and smoke sensors
- Z-Wave Plus certified: compatible with all new and old generations of Z-Wave technology

Product Specifications

Model Number:	ZW189-A01
Product Dimensions:	53.2 x 46 x 40 mm
Package Dimensions:	76 x 68 x 58 mm
Product Weight:	38 g
Total Package Weight:	66 g
Operating Distance:	Over 70 m (229 ft) indoors Up to 150 m (492 ft) outdoors
Power Consumption:	0.6W

Relative Humidity:	8% to 80%
Operating Temp:	32°F to 104°F (0°C to 40°C)
Beaming Capable:	Yes
Security Supported:	S2 Unauthenticated, S2 Authenticated
UPC/EAN:	810667025274

DAMAGE PREVENTION

Rently Water Leak Sensor	42
Aeotec Z-Wave Water Sensor 7 Pro	43
FirstAlert CO/Smoke Detector	44

Rently Water Leak Sensor

A compact, battery-powered leak sensor that detects leaks via built-in and wired probes and sends alerts to the Rently Smart Home app. The unit may be deployed as a freestanding sensor (using built-in probes) or as a wired remote sensor (via the wall mount/wired probe assembly).

Features

- Instant detection of water leaks and real-time notifications sent directly to your smart device
- · Compatible with the Rently Hub
- · Z-Wave S2 for improved security
- · Supports Smart Inclusion
- · Battery powered, no wiring required
- · Low battery alert
- Can be used to trigger home automation events or other Z-Wave devices such as sirens
- · Screw anchor mount

Product Specifications

Size (D x W x H):	68mmx68mmx34mm
Battery:	1 x CR2
Operation temperature:	0-40°C
Radio frequency:	908.4MHz

Aeotec Z-Wave Water Sensor 7 Pro

A 3-in-1 multi-sensor that's your first line of defense against expensive leaks, drips, pipe bursts, and floods. Monitoring more than just the presence of liquid, Water Sensor 7 Pro can also monitor the absence of water. When used to monitor tanks or pits, Water Sensor 7 Pro can alert you when water levels get too low and can also trigger automation routines.

- Wireless and battery powered: installation is as easy as sticking it to a surface
- The stainless-steel detection-tip can detect as little as 0.5mm / 0.02" of liquid on a surface
- Can instruct water valves to automatically close and alert you to overflows
- When water levels are detected to be too high or low, turn on electronic pumps or sump pumps and run them for a defined period or until the desirable water level is reached

Product Specifications

Product Weight:	42 g
Product Dimensions:	70 x 13 x 20 mm
Wire Length:	1.1 m
Operating Distance:	More than 164 feet indoors Up to 492 feet outdoors.
Operating Temperature:	32°F to 113°F / 0°C to 45°C.
Battery Type:	1x CR2 3.0V
Battery Life:	Up to 3 Years
Max Current Consumption:	5mW
Water Sensor:	Detects as little as 0.02" of liquid and upwards
Temperature Sensor:	Measures between 14°F and 149°F with as little as ±1.8°F of variance
Humidity Sensor:	Monitor between 0% and 80% with as little as ±3% of variance

FirstAlert CO/Smoke Detector

2-in-1 Smoke/Fire & Carbon Monoxide Alarm: The First Alert ZCOMBO alarm features a photoelectric sensor that detects the smoke most commonly produced by smoldering fires, providing sensitive detection while minimizing false alarms. The advanced electrochemical CO sensor detects carbon monoxide. Unique alarm sounds and indicator lights on the face of the detector distinguish a smoke warning from a carbon monoxide warning.

Features

- Battery-Operated for Convenience: The battery-operated combination smoke and CO alarm installs in minutes. The detector requires two AA batteries, and features a chirp and indicator light to let you know when they need replacing
- Easy Installation: The alarm mounts easily to a ceiling or wall, and comes with pins to secure the alarm to the base to prevent tampering
- Mobile Alerts for Peace of Mind: The integrated wireless alarm system sends you mobile alerts, so you're aware of dangers after the alarm is activated, whether you're home or away
- Test & Silence Button: For efficient testing

Product Specifications

Dimensions:	(LxWxH) 5" x 5" x 2"
Model:	ZCOMBO
UPC:	029054011381
Power:	2 AA batteries
Sensor Type:	Electrochemical, Photoelectric
Weight:	0.7 lb
Certifications:	UL217 and UL2034
